

**D. A. V. PUBLIC SCHOOL, KALINGA NAGAR,  
BHUBANESWAR - 29**

Dear parents,

Greetings of the day!

As you know, students are more successful in school when parents take an active interest in their homework — it shows your words that what they do is important.

Of course, helping with homework shouldn't mean spending hours hunched over a desk. You can be supportive by demonstrating study and organization skills, explaining a tricky problem, or just encouraging kids to take a break. And who knows? You might even learn a thing or two!

Here are some homework for you to guide the way:

1. **Set up a homework-friendly area:** Make sure your child has a well-lit place to complete homework. Keep supplies — paper, pencils, glue, scissors — within reach.
2. **Schedule a regular study time:** It's most important to stick with it so that it becomes a routine.
3. **Help them make a plan:** This will help in progressing in an organized way.
4. **Keep distractions to a minimum:** This means no TV, loud music, or phone calls. (Occasionally, though, a phone call to a classmate about an assignment can be helpful.)
5. **Make sure your child does his/her own work:** This will help to make them self sufficient
6. **Set a good example:** Be a motivator/mentor. Praise their work and efforts:
7. **Plan fun activities after homework:** Family game time, watching a favorite show, or heading out for ice cream are all great ways to naturally reward being finished with work. Take them to a village/relative's house for an outing and let them spend time with their cousins, grandparents, neighbors to improve their social emotional quotient.
8. **Motivate them to love their country:** Specifically motherland (village) by introducing legendary stories of motherland.
9. Take them for practical experiences of farm and farm products and help them to plant trees.

Thus, bringing a holistic development of your ward and a responsible future generation.
